

Tackling knife crime - youth led resource development

The Keeping Bristol Safe Partnership shadow board are working to create social media resources on tackling knife crime, serious violence and transitional safeguarding.

15th, 22nd & 29th August (10-4) at City Hall (no need to attend all 3!)

- We would really like young people to participate in workshops for the youth work stream to produce a set of social media resources/advice for all to keep the whole community safe
- And develop messages for professionals, parents, community guardians and each other.
- This will be done in partnership with families and friends who have lost someone to knife crime
- There will be opportunities to work with a local college to see your ideas turn into a resource
- Lunch will be provided
- Youth/support workers welcomed!

Email to Michael.sealy@bristol.gov.uk or kbsp.shadow@bristol.gov.uk to express interest in the session, RSVP, or ask any questions
